DIRECTOR'S NOTES

"The Wizard of Oz" has long been a favourite of "children" of all ages. First written by L. Frank Baum in 1900, the story reached the hearts of thousands as a movie in 1938 and as a Broadway Musical one year later.

During the process of recreating the story of the Lion, the Scarecrow, the Tinman and the little girl from Kansas, we rediscovered its lasting values. We hope this story still has the power to touch your hearts as it does ours.

Enjoy yourselves and may the dreams that you "dare to dream" really come true for you!

Nan Brien
